## TOURS DESCRIPTION

### **Tierra Del Fuego National Park**

The entrance to Tierra del Fuego National Park is 12 km far from Ushuaia. With a surface of 63.000 hectares, it contains many species of trees and bushes, such as firebushes, beech trees, ñires, box-leaved barberries, and flowers such as orchids, violets and another species. Doing this excursion we will be close to Nature. Following a road around the mountains we will see the peat bogs and the beaver dams before arriving at Lapataia River. Once we cross the river, we will have a nice view of Laguna Verde and the upland geese and ibis that come here every summer. We suggest you to take a long walk along a path up to Laguna Negra or the Beavers Path, to know the work of these curious animals. In Lapataia Bay (the end of the National Road N. 3) it is possible to see the area where the old inhabitants of the Island left their testimony: the Yamana kitchen, an interesting archeological place. Before returning to Ushuaia we are going to stop in front of Lago Roca, whose colour varies according to the weather conditions.
