## TOURS DESCRIPTION

### Iguazu Falls From The Argentine Side

By the colorful National Route N° 12, we will arrive to the Iguazú National Park from the Argentine side, located on the extreme northeastern region of Argentina, about 1600 km from Buenos Aires. Sacred land for the guaraní nation, land of enchantment and legend. Declared world wide heritage by the UNESCO, the Iguazú Falls consists in 275 waterfalls (most of them are on the Argentinean side) some of them up to 80 meters high turning this into a fantastic landscape, making it one of the magical quietness of the jungle and water's clatter. First we will take the "Ecological Train" to reach the "Garganta Station". Then, a walk of about 1200 mtrs. by footbridge to reach the viewpoint and admire the wonderful "Devil's Throat", the biggest waterfall (150 meters long and 80 high). Then we will take a walk across the Lower Circuit and the Upper Circuit, visiting other falls like Dos Hermanas, Chico, Bosetti, San Martin.

\*Handicaped facilities present in the park.
