TOURS DESCRIPTION

Wine Growers Tour

This tour among vineyards will show you how the human effort has transformed the desert into an oasis through an inherited from the Huarpes, the native inhabitants of the region. Nowadays drip irrigation is also used. Both have helped this land to become one of the principal wine world producers, with products of outstanding quality. We will visit 2 important and traditional wine establishments, the first one more industrialized and of greater scope, in the second we will be able to observe traditional procedures, for being a much smaller and artisan winery.
