TOURS DESCRIPTION

Perito Moreno Glacier

From El Calafate, after an 85km ride we will get to the great Perito Moreno Glacier. With a front of 80 meters high, and 3 km wide, is the only glacier in the world growing, so to speak, upon water –indeed it separates the Southern arm from the Rico arm pertaining both to Lake Argentino. This excursion is aimed at watching from the land, since different angles, from nearer and nearer watching points dramatic views of the glacier which is eaten up, so to speak by Lake Argentino. Every six or seven years the whole front part collapses down –an unforgettable sight at that, a really Dantesque sight. Return to El Calafate.

CONDITIONS

- Rates per pax in USD valid for foreigners, living outside Argentina.
- Rates subject to changes without previous notice and availability.
- Non used services are non-reimbursable.
